The enemy old not interfere with the return thancock's command. With Humphreys' was different. The rebels followed-him that attlify and cavalry within a short distance of Saepherdstown, opening on him with ance of Saspherdstown, opening on him with artillery whenever they could get within range. Our loss is one killed and six wound-ed. The troops safely recrossed at the Suep-terd-town ford last evening, bringing a numcerd-town ford last evening, bringing a number of privamers.

The robel wounded, numbering over a hundred, left in Charlestown, were brought with nour lines and will be pareled.

The robels had between thirty and forty killed and wounded on Fnaredsy night walle dispating the advance of Hamphrey's troops.

An officer from Bollvar informs methal dental came absorable to the Chicago Tribuns 2

An officer from Bollvar informs methal dental came absorable to the private part over them, and the poor fellows were in a concentrating an army at Holly Springs. It consists of the remnant of the search of the private part of the private part of the private part of the private part of the private and concentrate. They already number 20,000, and they will likely be largely increased.

It is rumered that Hayword and Familiner's rebel cavalry, stalloned for a time past on the forks of the Deer River, yesterday made an at tack on our forces on Lahand No. 10. It is not known whether this is true or not, but that there is some trouble below on the river, is feared, as there has been no arrival from Memphis since Wednesday algit, and several boats are already three \_ay past due.

The guerillas are gathering at Little River, not more than twenty miles from New Madird. The rebel fellifes has a camp of instruction there.

The People of Missouri, about Silessiown and Bertrand, are leaving to join the southers army. It is possible that our people may turn their attention that may.

The clitheses of Color are indignant at the removal of Postimaster Linagar, and strong efforts are being made to effect his reinstall ment. A petition signed by every business man in the city, was sent on to the department asking that he be relimited, and the special agent sent to some point where his aeric reasons and properly without much the service are more needed than at Cairo. In Ohio this thing was carried even further thap in Indiana. At the State Convention no man of progressive ideas was allowed to be nominated. The ticket was made up of timid men. The platform was drawn by old Tom Ewing, a specimen of the silurian era, lately exhumed. It was cold and cowardly, like its author. ILLNESS OF COL. CHURCH.—We regret to announce that Col. L. S. Courch is now suffering from a severe sickness. On Monday evening het he was brought house from Rockford quite iil, and has since had two or more congestive chills. The symptoms indicate a severe stack of lever, but under the in dictons care of Dr. Marritt, he will speedily recover, and soon be enabled to rejoin the boys of the Sch. among whom he is very popular as a commander. —Woodsteek Union. Signess.—There is just now an unusual amount of sickness through this region. Fo-vers of various forms, chilis and diptheria are the principal diseases. Of the last named we regret to add, there have been several deaths.

— W. B. Jamison has shown use a specimen of the Sea Island cotton, which he raised in his garden this year. He says it was not planted se early as it might have been, and therefore a large portion of it will not come to perfection. The sample shown is most perfect and beautiful. He thinks it might be successfully raised on sandy soil. Gen. W. T. Sherman, in command a Memphis, has ordered that for every boat that is fired on ten secession families shall be ex

pelled from the city.

The hall, although the notice of the meetg had been very brief, being simply an-

of Chicago, drawn thither to listen to the and close facts, and condensed, cloquent arounded to the speaker. A large sprinkling it ladies was in the galieries.

At 8 o'clock, Puter Fage, Esq., called the needing to order, and nominated Hon. Granticodrich as Chairman. The audience manipular rathed the nomination. Mr. Goodich came forward and introduced Hon. Lyman lymanish at the accader of the everting—as a the accader of the everting—as

whice this constrained which was ever enacted.

On this subjet, you will bear with one while I say a few words. Democrats claim to be the peculiar champions of the Constitution and the enforcement of for the Constitution and the enforcement of for the Constitution and the enforcement of the laws. I say for the Constitution and the enforcement of the Laws. propie of auritaria of the United States. I did not believe that my amendment was neces-sary. I thought that the Constitution was rood enough as it was. Still, as there were complaints, I voted in favor of a resolution alting upon the other States to onsider this proposition, so that we night have a request from the requisite num-er of States to call a convention. So did the lepublicans quesarily vote for that proposi-ion; and it received in the Senate of the lated States that one state. power to preserve it. They elothed Congress and the President with all the power which is necessary to crush even this in monstrons rebellion. "" There is the power found," they sak, "to pass this Confiscation Act?" It is found in the grant of power in the Constitution to raise an army, to declare way, to make rules and regulations concerning expirence on land and was, to call forth the midris to suppress insurrection, and to pass all laws which are necessary and proper for carrying into execution any of these granted powers. Ware the authority is given to Congress to declare way, to raise an army to put down in surrection, does it not necessarily follow that that army is to operate! unting down the insurrection in the ways that armies are secusioned to act. How is war made? In it through the elvil tribunals, the courts? Undoubtedly not. When was is declared, the power which may be exercised in a six test in these weaks by lateractional law writers?

"From the moment one State is at war with strong or the security of the carefular and wheresoever tound and to appropriate the property this taken to its own were of that of the captors. Vattel, an laternational law writer of sethis war. But it is true tone to the sugarated and commanned before the Republicans came into power.

After Mr. Lincols was insugarated and the country was called upon by the President to furnish troops for the purpose of putting down the rebellion, and Congress was convened in July, laws were passed for ratsing all the usen and all the money required by the Administration, and jet though all the men were furnished which the Administration reverse furnished the reverse furnished

the uncomposition. Mr. Goodchemic forward and introduced Hon. Lyman
rumbull as the speaker of the eyering—as a
san always true and never faitering in his deolice to the Union.

Judge Trumbull came forward and was redred with the most entimefable applause.
It is a follows:

Mr. Principior ADD Frittow Cirrizans:—
the speaker of the United States.

Mr. Principior ADD Frittow Cirrizans:—
the speaker of the content of the composition of the compositi

inherty or property without due process of law. True, the Constitution says that. But that clause is to be construed in connection with the other clauses which I have quoted. Where is it that you cannot take a man's liberty or property except by proceeding in a court? It is where the is no war—no insurrection—no power overturning the civil tribunals. There you are obliged to proceed through the courts. But when an insurrection heaks out and courts are are now from a dozen States of this Union, it is impossible to deprive a nan of life, liberty or property by due process of this Union, it is impossible to deprive a nan of life, liberty or property by due process of law in the courts. Then comes in the other power, to suppress an insurrection by force of srms. Who is to decide when you may employ the army to take life and property, and when you are obliged to proceed by the courts? The Constitution answers that by saying that Congress shall have the power to call out the army for the purpose, the time has come when the army for the purpose, the time has come when the army for the purpose, the time has come when the same may be used just as constitutionally to deprive a man of his life, liberty and property as in quiet time courts can be complosed for a constitution of his life, liberty and property as in quiet time courts can be complosed for a constitute property as an action of the united States the President is made the commander-in-chef of this million of men, and it becomes his duty to use this army in every way its which armies are accustomed to operate—to use the same in the courts of the constitutional objection. The comes of the constitution of the United States the President is made the court for the objection? We had an army the other day at Corinth of some twenty thousand men, under the gailant Gen. Rosecrans [applanse.] It was attracked by forty thousand reposed. It is not reposed and take their lives, he must get a process from some court, when there was no court there? If he could take their lives, that removrate general substances, and if the command everywhere. ["That's it, that's it."]

If our armies have not advanced, and if the rebellion has not been crushed, it is because of the leaders of this Democratic party at home, who are opposed to an advance of our armies, and sing nosannas to the generals that do the least. [Laughter and applause.] Mr. Hayes names Buell and McCleffin, and Pitz John Porter, as the men who are leading our armies to victory. I am not here to sitate to victory. I am not here to sitate to reto. I am not here to sitate to reto. I am not here to sitate to victory. I am not here to sitate to victory. I am not here to sitate to victory a fam not here to sitate to victory a fam not here to sitate to victory. I am not here to sitate to victory a fam not here to sitate to victory. I am not here to sitate the general who commanded at Bull Run was General who commanded at Bull Run was General who commanded at Bull Run was General who commanded of ur armies when disasters have taken place have not been Rapublicans generals in important positions; but there is one who has sustained himself upon every battle field—whose command was mostly taken from him to strengther the army upon the Peninguia—who con-

Pope. I allunk to Major General Banks. [Loud and prolonged appleaus.]

If our armies have not advanced, it is not owing to the imbedility of the Administration, as is charged. It is because they have been in the hands of men who falled to advance either from incompetency, or adisposition, or political considerations, or, what is more probable, because they are influenced by this party organization as home which is opposed to the way. On the subject of the Capitation Tax, the lodges in the southern part of the State did not carry the day against those in the northern, as is stated in the telegraphic report. On this question the division was between the lodges having small membership and those having large membership; the small lodges being for a large expitation tax, while the large lodges were for a small one. The matter was settled by fixing upon a rate proposed by the larger lodges—and satisfactory to all.
